

INTERIM EDDS ADMINISTRATIVE INTERPRETATION

Owen B. Carter, P.E., County Engineer

SUBJECT: ROAD CLASSIFICATION DETERMINATION

Referenced EDDS Sections:

- a. EDDS 3-02, "Road Classification"
- b. SD 3-030B, "Road Standards – Arterials"
- c. SD 3-060, "Road Standards – Non-Arterials (Rural)"
- d. SD 3-065, "Road Standards – Non-Arterials (Urban)"

DISCUSSION:

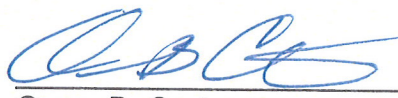

- a. **EDDS 3-02** describes county arterial and non-arterial road classifications.
- b. **SD 3-030B** provides rural and urban arterial road specifications based on road classification and, in the case of the rural arterials, traffic volume.
- c. **SD 3-060** provides rural non-arterial (public and private) road specifications based on road classification and traffic volume.
- d. **SD 3-065** provides urban non-arterial (public and private) road specifications based on road classification and traffic volume.

INTERPRETATION INSTRUCTIONS:

An interim interpretation of the above EDDS' requirements is hereby approved as follows:

The method for determining the appropriate traffic volume for a road, and therefore the road's classification, is not discussed in the EDDS. This process is an internal procedure of the Transportation/Drainage Engineering Section of PDS and will be accomplished by the Transportation Development Reviewer. Therefore, **NO DEVIATION IS REQUIRED** from a project applicant to determine the traffic volume for a road or its classification.

This interpretation will not compromise public health, safety or welfare.

Owen B. Carter
County Engineer

5/30/08
Date

This interim EDDS administrative interpretation is approved is approved pursuant to the SCC 13.01.020(4) delegation of authority from the County Engineer.
